

Alex Saez

My parents come from Spain.

My mother was born in Barcelona in 1965. She is now 50 years old and she has 3 older brothers and two younger brothers.

My grandparents on my mother's side come from Andalucía/Spain and live in Barcelona. It is a beautiful city and it is one of the most visited cities in the world. My father was born in Barcelona in 1967; he is now 48 years old. He has an older brother who was born in Andalucía.

My grandparents on my father's side come from Andalucía and live in Barcelona.

Andalucía

I am 15 years old and I study at Institut Vall D'Hebron. This is my last year. After that I want to study a technical higher degree to have more preparation to be a firefighter, plus a hard physical training. My favourite hobbies are playing videogames and going to the cinema with my friends. My life in Barcelona is very nice, because I was born in this city and I have met amazing friends here.
