

# Marina Molina

I was born in Barcelona, in Vall d'Hebron hospital. My parents are from Barcelona too. All my father's family is from Murcia, and all my mother's family is from Barcelona and Andalusia. My father works in the new tower of Vall d'Hebron. And my mother cleans a lot of houses.

## Tree Marina

I feel very good in Barcelona. It's a wonderful, magic city. There are a lot of things to do, very kind people, delicious food, amazing and beautiful streets...And of course, Vall d'Hebron is another example which shows how beautiful this town is. Also, in Vall d'Hebron high school there are good teachers, and good people, but, like in all the schools of our country, the education is awful.
