

PEDRO ARQUILLO

I was born in Barcelona and my parents also met in this city.
 My grandparents came from Jaén's countryside and also from Ciudad Real and Badajoz. Nowadays, my father and my mother work in a hospital. I feel good at Institut Vall d'Hebron. I have got good classmates and the teachers are good because they help me a lot.

Barcelona is a city where there are many things to do because it's a very big city.
 The reason why I love Barcelona is because it has got beaches and mountains and some spectacular monuments.
 I love practising tennis table, waterpolo and go walking with my family.
