

Vlad Rotari

I was born in Bălți, but I lived afterwards in a village called Răzălăi. As I was growing up, my parents thought I needed a better place to live so we moved to Barcelona when I was 7.

That decision made a better future possible for me.

Ancestors tree Vlad

I study in INS Vall d'Hebron. I have made a lot of new friends and some teachers made my boring days better!

I think Barcelona is one of the best cities in the world because it has the sea and the mountains, it has modernism, it has Gaudí and Dalí and because it is Europe's Harbour.

My favourite place is La Maquinista. I love staying there with my friends drinking some cola and having a good time!
